On August 1, the Florida Electronic Library will unveil its new look and implement the new Cengage-Gale PowerSearch 2.0 platform.

PowerSearch 2.0 gives comprehensive access to authoritative reference and periodical information from a single starting point.

Join us for a sneak peek of the new Florida Electronic Library and take a test drive of PowerSearch 2.0 to see the more visually appealing interface that gives users a Web-like experience and includes added features that will appeal to and empower library patrons, students, and other researchers.

## Attending the training is simple:

- Determine if your computer is ready.**
  - Run the Wimba Classroom [Setup Wizard](#) at least 24 hours prior to the session. The Wizard will ensure that you have the software and configuration you need to participate in the meeting.
  - We will be using Voice over IP (VoIP) technology. You can listen to the meeting through your computer's speakers or headphones. If you want to be able to speak you will need a microphone, but this is not required. Computer headsets are the perfect way to speak and hear on VoIP, as the headset includes both headphones and a microphone. There are many good models available for under \$20.
- Connect to the online classroom 15 minutes early to do a sound check.**
  - Go to [http://67.202.209.252/launcher.cgi?room=fl\\_meeting2](http://67.202.209.252/launcher.cgi?room=fl_meeting2)
  - On the Participant Login page, enter:  
**Room ID:** `fl_meeting2` (this may auto-populate)  
**Name:** (type your name in the space provided)

**Problems accessing the online classroom?** If you have any issues connecting, call Melissa Hooke at 850.245.6632 or check the [Wimba Classroom Guide](#). It has answers to most common questions.
